BNTU Press Release

October 8, 2013

The Belize National Teachers' Union (BNTU), wishes through this medium, to register its utter disdain with the current state of affairs; reference the alleged sale of the BELIZEAN PASSPORT to the Asian citizen in question.

Let it be categorically known; that the BNTU has an unflinching, subzero tolerance when it comes to our nation's patrimony being compromised. This situation, as it now stands, has revealed evidence on a daily basis; indicating that not only has the integrity and sovereignty of our Belizean birthright been irreparably smeared and brought into question by this latest Passport and Nationality Scandal; but that the whole matter reeks of corruption!!

The BNTU declares ... ***“Government of Belize – the time is NOW; to deal with this situation; which can be described as nothing less than a “national and international scandal”, in accordance with the statutes of this land!”***

Apply the laws, NOW, as per requirement and leave no stone unturned.

Further to this, the BNTU calls out all right-minded citizens of this nation to join in demanding that this declaration be heeded!

TOGETHER ... We MUST ensure that justice is served and that we root out corrupt practices, such as what we now find; staring this nation in the face.

The Wheels of Justice MUST turn in all quarters and in all directions!!!

The BNTU is prepared to oil the wheel and keep it oiled!!!!
